21		29	P1	for process of forming an expression for one area, egg $2.5 \times 4x$, $7(2x - 3)$
			P1	for process of forming an equation, e.g. $10x = 7(2x - 3)$ or $10x = 14x - 21$
			P1	for complete process to solve the equation to find the value of $4x$ or the value of x
			A1	for $4x = 21$ or $x = 5.25$ oe
			B1	ft using found value of x or $4x$ in perimeter of **B**: $4x + 8$
