Question	Answer	Mark	Mark scheme	Additional guidance
4 (a)	1800 to 2000	B1	for using at least one quantity rounded, eg using 6 km or 20 minutes	May work in metres
		P1	for complete process to find distance, eg $\frac{19}{60} \times 5.7$ or $\frac{20}{60} \times 6$ or $\frac{20}{60} \times 5.7$ or $\frac{19}{60} \times 6$ oe	Calculation could be done in stages. Mark can be given if figures are not rounded.
		A1	for answer in range 1800 to 2000	
(b)	decision with reason	C1	(dep on correct use of distance = speed × time) for reason related to their response to part (a), eg overestimate as speed and time are rounded up
