2 Cups are sold in packs and in boxes.

There are 12 cups in each pack.
There are 18 cups in each box.

Alison buys p packs of cups and b boxes of cups.

Write down an expression, in terms of p and b, for the total number of cups Alison buys.

Packs contain $12 \times p = 12p$ cups.

Boxes contain $18 \times b = 18b$ cups.

Total cups $= 12p + 18b$
