11 Jeff is choosing a shrub and a rose tree for his garden.
At the garden centre there are 17 different types of shrubs and some rose trees.

Jeff says,

"There are 215 different ways to choose one shrub and one rose tree."

Could Jeff be correct?
You must show how you get your answer.

Ways = 17 × number of rose-tree choices.

215 ÷ 17 = 12.647058...

1 mark
Find the implied number of rose-tree choices

No. The number of choices must be a whole number.

1 mark
Interpret the non-integer result

(Total for Question 11 is 2 marks)
