7

Shape **T** is reflected in the line $x = -1$ to give shape **R**.
Shape **R** is reflected in the line $y = -2$ to give shape **S**.

Describe the **single** transformation that will map shape **T** to shape **S**.

A rotation of 180° about (-1, -2).

The centre is where the two perpendicular mirror lines meet.

2 marks total
State the rotation angle and centre

(Total for Question 7 is 2 marks)
