8 60 people were asked if they prefer to go on holiday in Britain or in Spain or in Italy.

38 of the people were male.
11 of the 32 people who said Britain were female.
8 males said Italy.
12 people said Spain.

One of the females is chosen at random.

What is the probability that this female said Spain?

	Britain	Spain	Italy	Total
Male	21	9	8	38
Female	11	3	8	22
Total	32	12	16	60

Female total = 60 – 38 = 22; male Britain = 32 – 11 = 21.

1 mark
Find a first missing value

Male Spain = 38 – 21 – 8 = 9; female Spain = 12 – 9 = 3.

1 mark
Find a secondary value

1 mark
Use females only: 3 out of 22

1 mark
Find the three females who said Spain

$\frac{3}{22}$

(Total for Question 8 is 4 marks)
