20 Here are two squares, **A** and **B**.

A

B

The length of the side of square **A** is 50% of the length of the side of square **B**.

Express the area of the shaded region of square **A** as a percentage of the area of square **B**.

Choose side lengths: A = 1, B = 2.

Areas: A = 1^2 = 1; B = 2^2 = 4.

Shaded triangle = half of A = 0.5.

Shaded : B = 0.5 : 4 = 1 : 8

1 mark
Square the side lengths.

1 mark
The shaded area is 1/8 of square B.

	Area	Percent	
	4	100	
÷4	1	25	÷4
÷2	0.5	12.5	÷2

1 mark
12.5%.

12.5 %
