6 Sally used her calculator to work out the value of a number y.

The answer on her calculator display began

8.3

Complete the error interval for y.

Display begins 8.3, so 8.3 ≤ y < 8.4

1 mark
Lower 8.3.

1 mark
Upper 8.4.

8.3 ..... $\leqslant y <$ 8.4

(Total for Question 6 is 2 marks)
