23 A number, y, is rounded to 2 significant figures.

The result is 0.46

Write down the error interval for y.

0.46 is rounded to the nearest 0.01.

Half of 0.01 = 0.005.

$0.455 \leq y < 0.465$

1 mark
One boundary correct

1 mark
Complete error interval
