6

pen	32p
pencil	8p
ruler	17p

Rosie has £15 to spend on pens and pencils.

She has to buy the same number of pens as pencils.

What is the greatest number of pens she can buy?

One pen + one pencil = 32p + 8p = 40p.

1 mark
Cost of one pair

pairs	pence
1	40
30	1200
37	1480

£15 = 1500p

1500 ÷ 40 = 37 remainder 20.

37 pairs cost 1480p.

38 pairs cost 1520p: too much.

1 mark
Budget ÷ 40p

Greatest number of pens = 37.

1 mark
37 pens

(Total for Question 6 is 3 marks)
