18 Write an integer in the box to make the statement true.

$$\frac{2}{7} > \frac{6}{\boxed{22}}$$

1 mark
Integer 22 > 21

Explain why the statement is true.

2/7 = 6/21. Since 22 > 21,

1 mark
Denominator > 21

6/22 < 6/21: the positive numerator stays 6.

(Total for Question 18 is 2 marks)
