10 This accurate scale drawing shows the positions of three villages, *A*, *B* and *C*.

Tom walks from *A* to *B*.
He then walks from *B* to *C*.

Amy walks from *A* to *C*.

Tom walks more kilometres than Amy walks.

How many more?

AB ≈ 4.5 cm; BC ≈ 6.0 cm; AC ≈ 7.5 cm.

1 mark
Measure and scale

Extra map distance ≈ 4.5 + 6.0 – 7.5 = 3.0 cm.

1 mark
AB + BC
then subtract AC

Extra real distance ≈ 3.0 × 2 = 6 km.

1 mark
6 km

..... km

(Total for Question 10 is 3 marks)
