20 The perimeter of a square has the same length as the perimeter of this triangle.

All measurements are in centimetres.

Find an expression, in terms of x, for the length of a side of the square.
Give your answer in its simplest form.

Triangle perimeter = (2x + 3) + (5x – 2) + (5x + 3).

1 mark
Add all three sides

= 12x + 4 cm.

1 mark
Simplify; divide by4

The square has4 equal sides.

One side = (12x + 4) ÷ 4 = 3x + 1 cm.

1 mark
3x + 1

(Total for Question 20 is 3 marks)
