12 Mark has 18 bags of counters and 12 boxes of counters.

The mean number of counters in all 30 bags and boxes is 14
The mean number of counters in the 18 bags is 10

Mark says,

"The mean number of counters per box is 4"

Is Mark right?
You must show how you get your answer.

All counters = 30 × 14 = 420.

1 mark
Find totals

Counters in bags = 18 × 10 = 180.

Counters in boxes = 420 – 180 = 240.

1 mark
Subtract bag total

Mean per box = 240 ÷ 12 = 20.

No: the mean is20 counters, not4.

1 mark
20; Mark is wrong

(Total for Question 12 is 3 marks)
