2 Sophia pays £222 for a plane ticket.
She also pays 100 euros airport tax.

The exchange rate is £1 = 1.38 euros.

What percentage of the total cost of the ticket and the airport tax does Sophia pay for the airport tax?
Give your answer correct to 1 decimal place.

1 mark
Convert currency

222 × 1.38 = €306.36.

With tax: €406.36.

Tax as a percentage of the total:

$$\frac{100}{406.36} \times 100 = 24.6087...\%$$

1 mark
Tax ÷ total ×100

24.6% (1 decimal place).
