5 The height (x cm) and the width (y cm) of TVs are in the ratio 9 : 16

(a) Use this information to draw a graph to show the relationship between the height and the width of TVs.
Use values of x from 20 to 80

1 mark
y=(16/9)x

1 mark
Correct line
20≤x≤80

(2)

A TV has a width of 90 cm.

(b) Use your graph to work out the height of this TV.

	x	y	
	9	16	
×5			×5
	45	80	

Read y=90 across to the line,

then down: height ≈ 51 cm.

..... cm

1 mark
About51cm **(1)**

(Total for Question 5 is 3 marks)
