22 The diagram shows a fair 4-sided spinner.

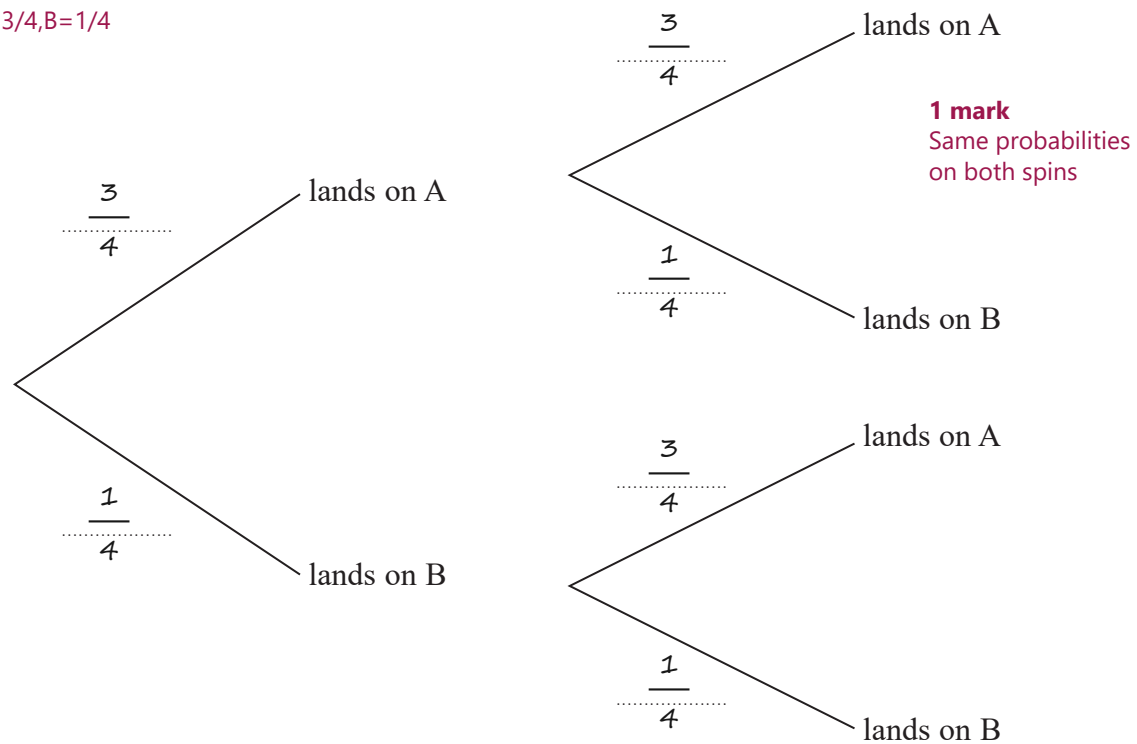

Hasmeet is going to spin the spinner twice.

(a) Complete the probability tree diagram.

1 mark
A=3/4,B=1/4

First spin **Second spin**

1 mark
Same probabilities on both spins

(2)

(b) Work out the probability that the spinner will land on A on the first spin and will land on B on the second spin.

$$\frac{3}{4} \times \frac{1}{4} = \frac{3}{16}$$

1 mark
Multiply A then B

1 mark
3/16

.....

(2)

(Total for Question 22 is 4 marks)
