20 Eric and Geraldine both drove from town *A* to town *B*.

Both Eric and Geraldine left town *A* at 2 pm.

Eric drove on route 1
He got to town *B* at 2 48 pm.

Geraldine drove on route 2
She got to town *B* at 3 25 pm.

Who drove at the greater average speed?
You must show all your working.

Eric:48 minutes = 48 ÷ 60 = 0.8 hours.

1 mark
Distance ÷ time

Speed = 36.4 ÷ 0.8 = 45.5mph.

1 mark
Correct speed method

Geraldine:85 minutes = 85 ÷ 60 hours.

Speed = 65.2 ÷ (85 ÷ 60) = 46.023529...mph.

Geraldine drove faster:46.0235... >45.5mph.

1 mark
Compare both speeds

(Total for Question 20 is 3 marks)
