15 Mika has to work out $\frac{5}{6} - \frac{5}{12}$

She writes $\frac{5}{6} - \frac{5}{12} =$

$\frac{7}{12} - \frac{5}{12}$

Correct the mistake Mika has made in her working.

She added 2 to the numerator instead of doubling it.

1 mark
Multiply top and bottom by 2.

Correct: $\frac{10}{12} - \frac{5}{12} = \frac{5}{12}$

(Total for Question 15 is 1 mark)
