6 A team gets

3 points for each match it wins
1 point for each match it draws
and 0 points for each match it loses

Jill's team has played 40 matches.
Jill's team has drawn 16 matches.

Jill's team has got a total of 55 points.

How many matches has Jill's team lost?

Drawn points = 16 × 1 = 16

Won points = 55 – 16 = 39

Won matches = 39 ÷ 3 = 13

Lost = 40 – 16 – 13 = 11

1 mark
Remove points from draws.

1 mark
3 points per win.

1 mark
11 lost.

(Total for Question 6 is 3 marks)
