10 Here is a list of 8 numbers.

2 3 4 5 6 7 8 9

Aisha picks at random one of these numbers.

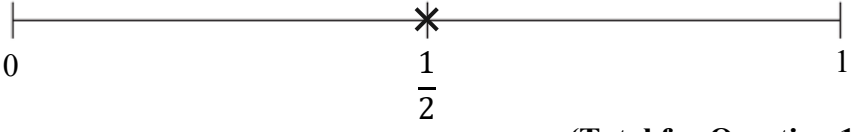

(a) On the probability scale below, mark with a cross (×) the probability that Aisha picks the number 1

1 mark
1 is absent,
so probability 0.

(1)

(b) On the probability scale below, mark with a cross (×) the probability that Aisha picks a number greater than 5

1 mark
4 out of 8,
so probability ½.

(1)

(Total for Question 10 is 2 marks)
