24 The table gives information about the length of each of 90 sticks.

Length (b cm)	Frequency
$0 < b \leqslant 8$	5
$8 < b \leqslant 16$	20
$16 < b \leqslant 24$	45
$24 < b \leqslant 32$	20

Jenny drew the frequency polygon below for the information in the table.
The frequency polygon is **not** correct.

1 mark
Do not close it.

Write down **two** things that are wrong with the frequency polygon.

1 ……Do not join the first and last points.……

……

2 ……Final point should be (28; 20); not (32; 20).……

……

1 mark
Use the final class midpoint.

(Total for Question 24 is 2 marks)
