11 The table gives the monthly rainfall in Manchester for four months.

Month	Jan	Feb	Mar	Apr
Rainfall (mm)	84	58	66	56

(a) On the grid below, draw a bar chart for this information.

2 marks total
Bar heights 84, 58, 66, 56.

(2)

The table below gives the monthly rainfall in Birmingham for the same four months.

Month	Jan	Feb	Mar	Apr
Rainfall (mm)	58	48	52	48

(b) (i) Work out the mean monthly rainfall for Birmingham.

Mean = (58 + 48 + 52 + 48) ÷ 4

= 206 ÷ 4 = 51.5 mm

1 mark
Total ÷ 4.

1 mark
51.5 mm.

.....mm

(2)

(ii) Work out the range for Birmingham.

Range = 58 – 48 = 10 mm

1 mark
Highest – lowest.

.....mm
(1)

The mean monthly rainfall for Manchester is 66 mm.
The range for Manchester is 28 mm.

Neil says that the amount of rain in Manchester varies more than the amount of rain in Birmingham.

(c) Is Neil correct?
You must give a reason for your answer.

Yes: Manchester has range 28 mm;
.....

Birmingham has range 10 mm. 28 > 10.
.....

.....

1 mark
Compare ranges to compare variation.
