19 Calculate $\sqrt{6\sin 72° - 4\cos 39°}$

Give your answer correct to 3 significant figures.

Calculator in degree mode.

6 sin 72° = 5.706339098...

4 cos 39° = 3.108583846...

√(5.706339098... − 3.108583846...) = 1.611755333...

= 1.61 (3 s.f.)
