17 Here are the ingredients needed to make 20 biscuits.

Makes 20 biscuits

500 g butter
240 g sugar
600 g flour

Amaya wants to make 50 biscuits.

(a) Work out how much sugar Amaya will need.

1 mark
Scale 20 to 50 by ×2.5.

	N	g	
	20	240	
×2.5			×2.5
	50	600	

Sugar = 600 g

1 mark
600 g.

..... g

(2)

A recipe for pastry needs

225 g of flour
100 g of butter

(b) Write as a ratio the number of grams of flour to the number of grams of butter.
Give your ratio in its simplest form.

1 mark
Flour : butter = 225 : 100.

	F	B	
	225	100	
÷25			÷25
	9	4	

9 : 4

1 mark
Divide both parts by 25.

.....

(2)

(Total for Question 17 is 4 marks)
