23 One sheet of A4 paper has an area of $\frac{1}{16}$ m^2

A4 paper has a mass of 80 g per m^2

Work out the total mass of 320 sheets of A4 paper.

1 m^2 has mass 80 g

1 mark
Find the mass of one sheet.

1/16 m^2 has mass 80 ÷ 16 = 5 g

320 sheets: 320 × 5 = 1600 g

2 marks total
Multiply the one-sheet mass by 320.

1 mark
Include the mass unit: grams.

1600 g

(Total for Question 23 is 4 marks)
