7 Stamps cost 67p each.
Max has £20 to spend.

He buys as many stamps as he can.

Work out the amount of change Max should get from £20
Give your answer in pence.

£20 = 2000p

1 mark
Use pence throughout.

2000 ÷ 67 = 29.8507..., so buy 29 stamps

29 × 67 = 1943p

1 mark
Round DOWN to whole stamps.

Change = 2000 – 1943 = 57p

1 mark
30 stamps cost 2010p, which exceeds £20.

57 p

(Total for Question 7 is 3 marks)
