19 In a car park,

the number of cars : the number of vans = 7 : 4
the number of vans : the number of lorries = 3 : 2

The total number of cars, vans and lorries in the car park is 205

How many vans are in the car park?

Cars : vans = 7 : 4 = 21 : 12

Vans : lorries = 3 : 2 = 12 : 8

Cars : vans : lorries = 21 : 12 : 8

1 mark
Match the SAME number of vans in both ratios.

41 parts = 205, so 1 part = 205 ÷ 41 = 5

1 mark
All 41 parts make 205.

Vans = 12 × 5 = 60

1 mark
Check: 105 + 60 + 40 = 205.

60

(Total for Question 19 is 3 marks)
