23 Make h the subject of the formula $k = 3(2h - 1)$

$k = 6h - 3$

$+3$ $+3$

$k + 3 = 6h$

$\div 6$ $\div 6$

$$h = \frac{k + 3}{6}$$

1 mark
Expand the bracket.

1 mark
Add 3 to both sides.

1 mark
Divide the whole of k + 3 by 6.

(Total for Question 23 is 3 marks)
