8 There are only blue cars, grey cars, white cars and red cars in a garage.

The graph shows information about the numbers of blue cars, grey cars and white cars.

1 mark
Draw the red line at height 7, halfway between 6 and 8.

(a) Write down the number of grey cars.

1 mark
Read the height at grey: 10 cars.

10 **(1)**

There are 7 red cars in the garage.

(b) Show this information on the graph.

(1)

12 more cars are delivered to the garage.

(c) Work out the total number of cars that are now in the garage.

6 + 10 + 8 + 7 + 12 = 43

43 **(2)**

2 marks total
Add every original colour, then the 12 new cars.

(Total for Question 8 is 4 marks)
