8 The length of a rectangle is twice as long as the width of the rectangle.
The area of the rectangle is 32 cm^2.

Draw the rectangle on the centimetre grid.

$4 \times 8 = 32$ and $8 = 2 \times 4$.

1 mark
Find lengths with the correct ratio and area

1 mark
Correct 4 cm by 8 cm rectangle on the grid

(Total for Question 8 is 2 marks)
