10 (a) Write down the value of $100^{\frac{1}{2}}$

A power of ½ means square root: √100 = 10.

10

(1)

1 mark
Square root of 100

(b) Find the value of $125^{\frac{2}{3}}$

First take the cube root: 5 × 5 × 5 = 125.

1 mark
Use the denominator of the power as the root

Then square it: $5^2 = 25$.

25

(2)

1 mark
Correct value

(Total for Question 10 is 3 marks)
