7 Steve says,

> "There are more prime numbers between 20 and 30 than there are between 10 and 20"

Is Steve right?
You must show how you get your answer.

Between 10 and 20: 11, 13, 17, 19 — four primes.

Between 20 and 30: 23, 29 — two primes.

1 mark
List the primes in at least one interval

No. There are fewer primes between 20 and 30.

1 mark
No, supported by both complete lists

(Total for Question 7 is 2 marks)
