17 80 people are asked if they like coffee.

48 of these people are women.
61 of the 80 people like coffee.
8 of the men do **not** like coffee.

(a) Use this information to complete the frequency tree.

1 mark
Place the given 48 and 8

1 mark
80 − 48 = 32 men
32 − 8 = 24 like coffee

1 mark
61 − 24 = 37 women like coffee
48 − 37 = 11 do not

(3)

One of the people who like coffee is chosen at random.

(b) Find the probability that this person is a woman.

Choose from the 61 people who like coffee.

37 of these people are women.

1 mark
Use the coffee-likers as the total

$\frac{37}{61}$

1 mark
Correct conditional probability

(2)

(Total for Question 17 is 5 marks)
