7 The table gives information about the speeds of 70 cars.

Speed (s mph)	Frequency
$0 < s \leqslant 10$	14
$10 < s \leqslant 20$	18
$20 < s \leqslant 30$	26
$30 < s \leqslant 40$	12

Draw a frequency polygon for this information.

Class midpoints: 5, 15, 25, 35 mph

2 marks total
Correct points, joined with straight lines.

(Total for Question 7 is 2 marks)
