14 A shop sells compost in 20 litre bags and in 40 litre bags.
One day the shop had two special offers for the compost.

Which offer is the better value for money?
You must show how you get your answer.

20 L offer: 2 bags = 40 L for £3.50

40 L offer: 3 bags = 120 L for £9

For 120 L, first offer costs 3 × £3.50 = £10.50

£9 < £10.50, so the 40 L offer is better.

3 marks total
Compare equal litres
£10.50 versus £9
40 L offer

(Total for Question 14 is 3 marks)
