18 The histogram gives information about the heights, in metres, of the trees in a park.
The histogram is incomplete.

20% of the trees in the park have a height between 10 metres and 12.5 metres.
None of the trees in the park have a height greater than 25 metres.

Complete the histogram.

Known bars: 2.5×1.2 = 3; 2.5×2 = 5;

5×2.8 = 14; 12.5×0.8 = 10; total 32.

This is 80%, so missing frequency = 32 ÷ 4 = 8.

Class width 2.5 m; density = 8 ÷ 2.5 = 3.2.

3 marks total
Known frequencies
Missing frequency 8
Density 3.2 bar

(Total for Question 18 is 3 marks)
