3 Tom and Adam have a total of 240 stamps.
The ratio of the number of Tom's stamps to the number of Adam's stamps is 3 : 7

Tom buys some stamps from Adam.
The ratio of the number of Tom's stamps to the number of Adam's stamps is now 3 : 5

How many stamps does Tom buy from Adam?
You must show all your working.

Initially 10 parts = 240, so 1 part = 24.

Tom initially has 3 × 24 = 72 stamps.

Finally 8 parts = 240, so 1 part = 30.

Tom finally has 3 × 30 = 90 stamps.

Tom buys 90 – 72 = 18 stamps.

4 marks total
Find old part 24
Tom initially 72
Tom finally 90
Difference 18

.....

(Total for Question 3 is 4 marks)
