25 The diagram shows a prism.

The cross section of the prism is a right-angled triangle.
The base of the triangle has length 5 cm

The prism has length 25 cm
The prism has volume 750 cm^3

Work out the height of the prism.

Cross-section area = 750/25 = 30 cm^2.

For triangle height h: ½ × 5 × h = 30.

So h = 30 × 2/5 = 12 cm.

3 marks total
Area 30 cm^2
½×5×h=30
Height 12 cm

..... cm

(Total for Question 25 is 3 marks)
