17 60 people are asked if they prefer to text or to email their friends.

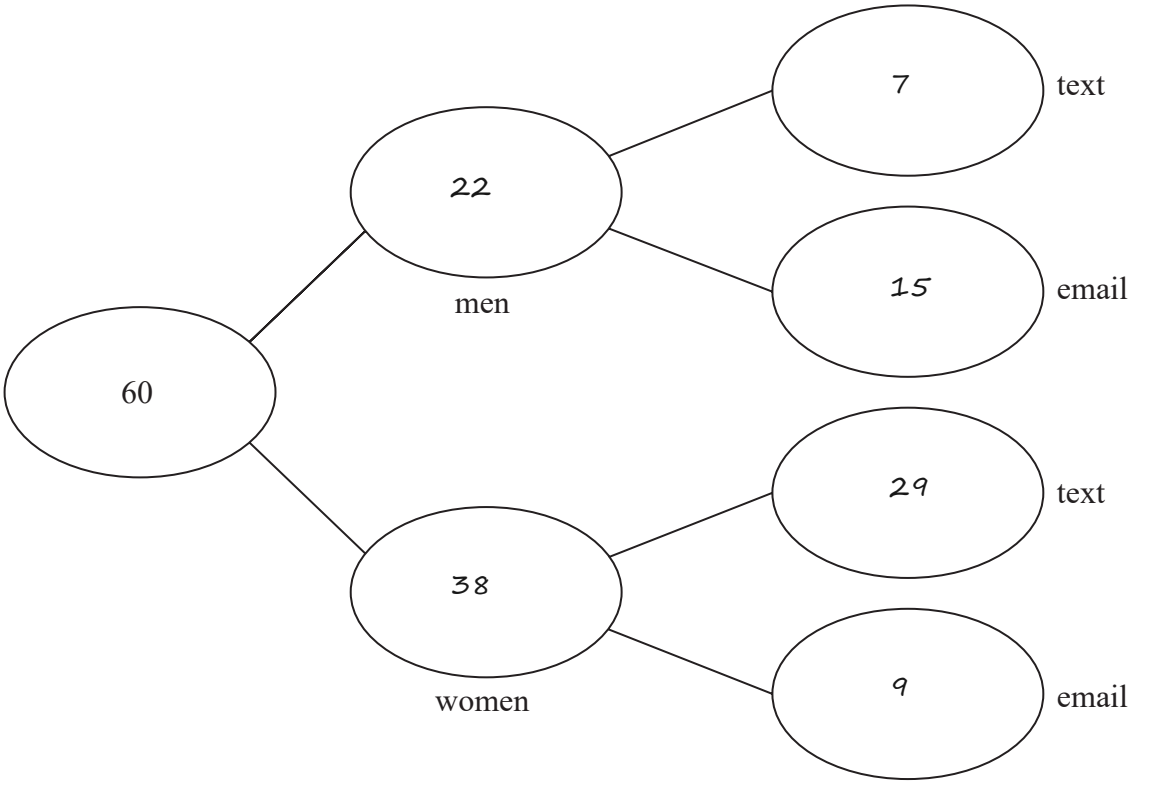

38 of the people are women and the rest are men.
15 of the men prefer to email their friends.
60% of the people prefer to text their friends.

Complete the frequency tree for this information.

Men = 60 – 38 = 22; men texting = 22 – 15 = 7.

Total texting = 60% of 60 = 36.

Women texting = 36 – 7 = 29; emailing = 38 – 29 = 9.

5 marks total
Correct frequency tree
Men 22, 7, 15
Women 38, 29, 9

(Total for Question 17 is 5 marks)
