DO NOT WRI

15 Jenna measures all the angles around a point.

Her results are 23°, 145°, 23° and 69°

Explain why these results cannot be true.

23 + 145 + 23 + 69 = 260°.

1 mark

Not 360°

Angles around a point must total 360°, so 100° is missing.

(Total for Question 15 is 1 mark)
