2		20	P1	for process to find the height of the surface of water, e.g. $32 \times \frac{3}{4}$ (= 24) or to find the volume of the tank, e.g. 50 × 32 × 20 (= 32 000)
			P1	for process to find volume of water and sand, e.g. 50 × "24" × 20 (= 24 000) or "32 000" × $\frac{3}{4}$ (= 24 000) or for process to divide their height in the ratio 5 : 1 e.g. "24" ÷ (5 + 1) × 5 (= 4 × 5 = 20)
			P1	(dep P1) for process to divide volume in ratio 5:1, e.g. "24 000" ÷ (5 + 1) × 5 (= 4000 × 5 = 20 000) or process to find volume of water, e.g. "20" × 50 × 20 (= 20 000)
			P1	for process to convert to litres, e.g. "20 000" ÷ 1000
