21 Here is an accurate scale drawing of a school playground.

1 cm represents 2 m

Nasim is going to put a seat in the playground.

The seat has to be

less than 9 m from *C*
closer to *BC* than to *AB*
more than 4 m from *AB*

Show, by shading on the diagram, the region where Nasim can put the seat.

(Total for Question 21 is 4 marks)
