14 Each worker in a factory is either left-handed or right-handed.

22 of the 45 workers are male.
16 of the 34 right-handed workers are female.

Complete the frequency tree for this information.

Female: 45 – 22 = 23

1 mark
Use the known male total

Male right: 34 – 16 = 18

Male left: 22 – 18 = 4

Female left: 23 – 16 = 7

(Total for Question 14 is 3 marks)

1 mark
Both given values and a missing value found

1 mark
All six entries correct
