

18 A shop has two offers.

Without a Store card

$\frac{1}{3}$ off normal prices

With a Store card

45% off normal prices

Laura is going to buy a coat in the shop.

The normal price of the coat is £90

Laura would pay less with a Store card than she would pay without a Store card.

How much less?

£.....

(Total for Question 18 is 4 marks)
