Question	Working	Answer	Mark	Notes
15 (a)		Shown	M1	for method to establish at least one root between $x = 0$ and $x = 1$, eg f(0) = – 5 and f(1) = 3
			C1	for correct values and a deduction about the roots eg as there is a sign change there must be at least one root between $x = 0$ and $x = 1$ (as f is continuous)
(b)		Shown	C1	for a correct first step in rearrangement, eg $x(x^2 + 7) – 5 = 0$ or $x^3 + 7x = 5$
			C1	for clear and correct steps showing complete rearrangement
(c)	$x_1 = 0.625$	0.6704(483001)	M1	for substitution of 1 into the formula (to get 0.625)
	$x_2 = 0.6765327696$		M1	for substitution of "$x_1 = 0.625$" and "$x_2 = 0.6765327696$" to give x_2 and x_3
	$x_3 = 0.6704483001$		A1	0.6704(483001)
(d)		Comment	M1	substitutes answer to (c) into expression (to get –0.00549...)
			C1	appropriate comment, eg accurate as answer is close to 0
