12 A total of 275 people took a driving theory test on Monday.
Of these people, 68% passed the test.

(a) (i) What percentage of people who took the test on Monday did **not** pass the test?

(1)

(ii) How many of the 275 people who took the test on Monday passed the test?

(2)

On Wednesday, a total of 90 people took a practical driving test.
Of these people, 72 passed the test.

(b) Write as a ratio the number of people who passed the practical test to the number of people who did **not** pass the practical test.
Give your ratio in its simplest form.

(2)

(Total for Question 12 is 5 marks)
