6 The diagram shows a prism.

The cross section of the prism is a right-angled triangle.
The base of the triangle has length 5 cm

The prism has length 25 cm
The prism has volume 750 cm^3

Work out the height of the prism.

Volume = cross-section area × prism length

Cross-section area = 750 ÷ 25 = 30 cm^2

½ × 5 × h = 30

5h = 60, so h = 12 cm

1 mark
area = 30 cm^2

1 mark
½ × 5 × h = 30

1 mark
height = 12 cm

12 cm

(Total for Question 6 is 3 marks)
